ABOUT

My name is Marcos Paulo, and I currently work as a **QA Lead** at **dti digital**, assigned to the **ADI Global Distribution** project, where I lead a team of **Quality Engineers/Analysts**. I apply expertise in **automated testing**, **test case design**, **performance testing**, **manual testing**, **business complexity analysis**, **test coverage analysis**, and **CI/CD pipeline implementation** for functional validations. I also work across multiple testing areas, including **mobile testing**, **front-end testing**, **API testing**, **software quality**, **test automation**, and **quality engineering**.
